

TECHNICAL RIDER

The rider's requirements are not the whims of the DJs, but a technical necessity designed to ensure the highest possible quality of the event and for this the following minimum of technical equipment is required.

During the sound check, we ask you to ensure the availability of all technical services working at the event (Sound, Light, VJ, FX, Stage man).

P.A. SYSTEM

Number of persons in the hall:

10 - 100 people 5-10 kW <110 dB

101 – 200 people 10-20 kW <120 dB

201 – 300 people 20-30 kW <130dB

Performances in open areas should be more powerful.

DJ PLACE

- It is necessary to prepare a table or set up approximately with these the following sizes:
L 200cm, W 50cm, H 100cm.
- Mixer Pioneer series DJM S (or any DJM remote control from 700 series with microphone effects);
- Radio microphone Shure Beta 58 or Sennheiser G3;
- Di Box – 2 pcs;
- 500 W monitor with volume control on the Dj mixer;
- HDMI connector for karaoke system (if there are screens / TV);
- Possibility of connecting to wireless Internet Wi-Fi;
- 220v socket for 6 sockets up to 3 kW.

LIGHT, SCREEN & FX

During a DJ performance, the lighting technician needs to control the light and create a beautiful dynamic picture on the dance floor.

If there are screens, VJ should also accompany the dj performance with spectacular footage and use our logo.

The availability of special effects on the stage such as: CO2, Foam machine, Spark machine, Fog machine, Metaphan, Fire machine, etc. are welcome if there is a technician who will guide them and be responsible for the safety of their use.

HOSPITALITY RIDER

FLIGHT:

1 economy class ticket with baggage included (23 kg).

In the case of additional payment for excess musical equipment at the airport, according to the rules of certain airlines, reimbursement is assigned to the organizers.

NECESSARILY!!! Tickets should be pre-agreed with Valentin.

TRANSFER:

The transfer of the team should be comfortable and shortest as possible.

On the day of the event, the Customer or organizer is obliged to provide the team with a minivan. Availability of luggage compartment and still water 0.5 l.

It is important that the transport should be new and clean.

ACCOMMODATION/FOOD:

The organizers provide the team with accommodation in a minimum 4-star hotel.

2 standard, double rooms with separate beds. It is necessary to have windows in the rooms, as well as hot and cold water.

Rooms must have a balcony. The costs of minibars in the rooms are included.

The team's period of stay is considered to be the time from the moment of arrival to the moment of departure, regardless of the schedule (check-in/check-out) of the hotel.

In case of early arrival of the team in the city, the organizer is obliged to ensure early check-in at the hotel!!!

The rooms should have wireless Internet (Wi-Fi).

The organizers provide daily allowances for meals for the team in the amount of 100 euros for each team member!
